

AMENDMENT TO THE CLAIMS

This listing of claims will replace all prior versions, and listing, of claims in the application:

Listing of Claims:

Claims 1-22. (Canceled)

23. (Previously presented) In a desiccant cartridge, a combination comprising a cap for providing closure over said desiccant cartridge and a docking piece for engagement with said cap, said cap comprising a generally circular configuration with a central axis extending therethrough and a first aperture in said cap coaxial with said central axis for communication with said desiccant cartridge, said cap having a recess in the form of a slot formed atop a surface of said cap and extending radially outwardly along said surface from said central axis, said docking piece having a housing detachably engaged in said slot, said housing further comprising a second aperture therein radially spaced from said first aperture and in communication with said first aperture through said housing.

24. (Previously presented) Combination as set forth in claim 23 wherein said housing is snap fit within said slot.
